

Introducing Spectrum's **Exciting New Addition** to the ErgoKneeling™ Range of Low Working Equipment

A very lightweight, compact kneeling system specifically designed for practitioners who work in situations where space may be restricted and/or portability of equipment is a priority.

The all new foldable eK Lite™, has been designed and developed in response to the expressed needs of community based practitioners who regularly undertake healthcare tasks at or near floor level. Their request:

“For a lighter, very compact and highly portable version of the ErgoKneeler™”
