

ONELEG® STOOL

Ergonomic rocking stool, proven to help improve seated posture.

OneLeg is an ergonomic stool designed to promote active sitting, relieve aches and pains associated with low working and improve seated posture. Originally designed for gardening and other outdoor tasks, it now a popular seating solution in schools, nurseries, hospitals, domiciliary settings and offices.

Benefits of using the OneLeg:

- The unique base allows the user to rock and turn 360° around themselves.
- Provides the user with a wide radius to work within.
- Promotes active sitting and freedom of movement.
- Muscles in the abdomen are continuously used.
- Helps to improve the co-ordination and dynamic stability of the back – turning a slouch into a controlled upright movement.
- Allows flexible and dynamic postures which is very beneficial to the user.
- Ideal for individuals who undertake tasks at low heights.
- Enhances learning environments by enabling eye to eye interaction with pupils.
- Allows freedom of movement whilst on the stool, ideal for those who suffer with motoric-hyperactivity and other conditions that benefit from ‘fidgeting’.
- Can be used by everyone from children approx. 4 years old to adults – depending on stool height.
- Suitable for cleanroom working environments, such as healthcare, laboratories and food production.

Features:

- Unique curved base.
- Compact for use where space is limited.
- Easy to transport – carry strap available
- 5 heights available.
- Made from high density polyethylene
- UV safe – UV8 (8000 hours)
- Easy Clean
- Comes complete with silicone anti-slip covers for both seat and base - recommended
- Carry strap available.
