

Evac+Chair 900H

Powered Evacuation Chair

The Evac+Chair 900H is a battery-powered, motorised evacuation chair, which enables non-ambulant individuals to be moved up or down multiple flights of stairs by a single operator, without the need for carrying or lifting.

Features:

- Easy to use control pad enables the user to control the speed and direction (upward/downward) of the evacuation.
- Head Restraint supports passengers head and neck for increased comfort.
- Pushing handle enables the chair to be manoeuvred easily on flat terrain.
- Powered belt track system reduces manual handling and provides a smooth upward/downward evacuation.
- Armrests provide passenger support and assistance.
- Safety belt secures the passenger into the chair.
- 24V lithium-Ion battery powers the chair upwards/downwards and one full charge will last for 150 flights of stairs.
- Ascending handles enables a 2nd person to assist in the operation, if required.
- Footrest provides a secure place for the passenger to rest their feet during evacuation.

Dimensions:

- Height 1120mm (folded) 1600mm (unfolded)
- Width 520mm (folded) 520mm (unfolded)
- Depth 270mm (folded) 1220mm (unfolded)
- Weight 32kg (with battery) 30kg (without battery)
- Payload capacity 160kg
- Motor 200W (power) 24V (voltage)
- Average Speed (m/s) 0.2 (ascending) 0.3 (descending)
- Battery Life 90mins (usage) 3-5 years (life span)
- Charge Time 5 hours
