

# MCI Manikin

An efficient, cost effective way to practice and assess emergency response procedures for dealing with multiple casualty incidents.

Although unpredictable, training for a Mass Casualty Incident (MCI) is paramount in order to save as many lives as possible. These inflatable training manikins can save you time, money and significantly reduce the liabilities associated with conducting Mass Casualty Incident drills.

## Benefits:

- Eliminates volunteer hassles and potential for injury.
- Always available — never needs breaks or calls in sick!
- Use all year round, even in adverse weather.
- Easy to inflate so drill preparation is quick and efficient.
- Low liability, high flexibility training tool.
- Re-usable and economically friendly.
- Paediatric size simulates an injured child - which is difficult to do with live volunteers.
- Can be used in decontamination scenarios.

## Features:

- Available in paediatric and adult forms.
- Clear chest pocket for the use of pre-scripted casualty scenarios.
- Sandbag feet help keep the adult manikin in place.
- Water inlets in the paediatric manikins feet allow it to be water filled.
- Grommets located on the feet and shoulder allow for tie-down in windy conditions.
- Made from durable PVC material resistant to punctures.
- Easily deflated, rolled up and stored.

## Product Codes:

MCI Adult Manikin – MCI001  
MCI Paediatric Manikin – MCI002
